

## Marte Meo – Maria Aarts

Making the most of daily interactions to support children's development and wellbeing.

**Community Children's Centres SA and TAFE SA invite you to participate in this exciting opportunity to spend a day with Maria Aarts.**

Maria Aarts is the founder and Director of the Marte Meo International Network Netherlands, which has programs established worldwide. The term Marte Meo derives from Latin, meaning 'on one's own strength'. The programme has application in a wide range of sectors including disability, foster care, aged care, neonatal care, early childhood and schools.

Marte Meo is a video-based method that provides a practical approach to building quality interactions with children. Its practical framework allows educators, teachers, parents and professionals to support children's communication, social and emotional development, and wellbeing.

In her presentation, Maria will use short film clips to highlight how to make the most of everyday moments to build and strengthen positive relationships. Through video analysis she will show how the quality of interactions supports children to build friendships, cooperate and establish positive relationships.
